C - Right Rocker Guard
D - Left Rocker Guard

Tools Needed:
1/2" Socket Wrench

HARDWARE

A - 5/16" J Nut

(6)

B - 5/16" Lock Bolt

(6)

1

Remove body plugs from body sill

1

Install J-Nuts in body sill at fastener holes

3

Align rocker guard to attachment holes and install fasteners on both sides of the vehicle

4

Tighten all fasteners on both sides. Verify all fasteners are secure and rocker guards do not rock or slide.
