

# INSTALL SHEET

## RELB15-LIGHT BAR

### 2015-18 JEEP RENEGADE

VIDEO GUIDES:

[WWW.MCAFTERMARKET.COM/INSTALL](http://WWW.MCAFTERMARKET.COM/INSTALL)

#### PACKAGE CONTAINS

Components:  
A - Light Bar  
B - Plate  
C - Spring Plate

Tools Needed:  
3/16" Allen Wrench

#### HARDWARE

1

Slide a plate into roof rack opening and place spring plate over roof rack and align for bolt holes.

2

Loosely bolt from side with 2 bolts and washers.

Repeat for other side of the vehicle.

3

Place light bar on plates and loosely bolt on.

**Note:** Check for placement of your specific lights or light bar and measure and mark for placement. Remove light bar and attach lights to desired location.

4

Place light bar with lights attached on plates and bolt into place. Fully tighten all bolts.

**Note:** Drilling or cutting into the light bar is not recommended and could promote rust.
